## Jericho Site

It is with a heavy heart today that we announce the decision to permanently close our Jericho classroom site on June 18, 2022, at the conclusion of the current school term. While several factors played a role in shaping this very difficult decision, it was a confluence of recent events that we felt necessitated decisive action.

We will be moving to Sitka location and while we are very excited to remain part of FMSS community, a big part of our heart will always belong to Jericho site.

Jericho has been such a wonderful place where lots of learning happen. We have built a great community over these years, and we cannot be more thankful about all the smiles and memories we created in here.
